

HOMOEOPATHIC MATERIA MEDICA

Instructions:

- I (a) Homoeopathic Materia Medica is differently constructed as compared to other Materia Medicas;
- (b) Homoeopathy considers that study of the action of drugs on individual parts or systems of the body or on animal or their isolated organs is only a partial study of life processes under such action and that it does not lead us to a full appreciation of the action of the medicinal substance, the drug substance as a whole is lost sight of.
- II Essential and complete knowledge of the drug action as a whole can be ascertained only by qualitative drug proving on healthy persons and this alone can make it possible to elicit all the symptoms of a drug with reference to the psychosomatic whole of a person and it is just such a person as a whole to whom the knowledge of drug action is to be applied.
- III (a) The Homoeopathic Materia Medica consists of a schematic arrangement of symptoms produced by each drug, incorporating no theories for explanations about their interpretation or inter-relationship;
- (b) Each drug should be studied synthetically, analytically and comparatively, and this alone would enable a Homoeopathic student to study each drug individually and as a whole and help him to be a good prescriber.
- IV (a) The most commonly indicated drugs for day to day ailments should be taken up first so that in the clinical classes or outdoor duties the students become familiar with their applications and they should be thoroughly dealt with explaining all comparisons and relationship;
- (b) Students should be conversant with their sphere of action and family relationships and the rarely used drugs should be taught in outline, emphasizing only their most salient features and symptoms.
- (V) Tutorials must be introduced so that students in small numbers can be in close touch with teachers and can be helped to study and understand Materia Medica in relation to its application in the treatment of the sick.
- (VI) (a) While teaching therapeutics an attempt should be made to recall the Materia Medica so that indications for drugs in a clinical condition can directly flow out from the proving of the drugs concerned;
- (b) The student should be encouraged to apply the resources of the vast Materia Medica in any sickness and not limit himself to memorise a few drugs for a particular disease and this Hahnemannian approach will not only help him in understanding the proper perspective of symptoms as applied and their curative value in sickness but will even lighten his burden as far as formal examinations are concerned;
- (c) Application of Materia Medica should be demonstrated from case-records in the outdoor and the indoor;
- (d) Lectures on comparative Materia Medica and therapeutics as well as tutorials should be integrated with lectures on clinical medicine;
- VII For the teaching of drugs, the department should keep herbarium sheets and other specimens for demonstrations to the students and audio-visual material shall be used for teaching and training purposes.
- VIII (a) There is a large number of Homoeopathic medicines used today and much more medicines being experimented and proved at present and more will be added in future and some very commonly used Homoeopathic medicines are included in this curriculum for detail study;
- (b) It is essential that at the end of this course each student should gain basic and sufficient knowledge of "How to study Homoeopathic Materia Medica" and to achieve this objective basic and general topic of Materia Medica should be taught in details during this curriculum, general topics should be taught in all the classes;
- (c) The medicines are to be taught under the following headings, namely:—
- (1) Common name, family, habitat, parts used, preparation, constituents (of source material).
 - (2) Proving data.
 - (3) Sphere of action.
 - (4) Symptomatology of the medicine emphasizing the characteristic symptoms (mental, physical generals and particulars including sensations, modalities and concomitants) and constitution.
 - (5) Comparative study of medicines.

(6) Therapeutic applications (applied Materia Medica).

FIRST B.H.M.S.

A. Theory:

General topics of Materia Medica :-(including introductory lectures)

(a) Basic Materia Medica –

1. Basic concept of Materia Medica
2. Basic construction of various Materia Medicas
3. Definition of Materia Medica

(b) Homoeopathic Materia Medica

1. Definition of Homoeopathic Materia Medica
2. Basic concept and construction of Homoeopathic Materia Medica.
3. Classification of Homoeopathic Materia Medica.
4. Sources of Homoeopathic Materia Medica.
5. Scope and Limitations of Homoeopathic Materia Medica..

Note: There shall be no examination in First B.H.M.S.

SECOND B.H.M.S

A. Theory:

(a) In addition to syllabus of First B.H.M.S. Course, following shall be taught, namely:-

- (i) Science and philosophy of homoeopathic materia medica.
- (ii) Different ways of studying homoeopathic materia medica (e.g. psycho-clinical, pathological, physiological, synthetic, comparative, analytical, remedy relationships, group study, portrait study etc.)
- (iii) Scope and limitations of homoeopathic materia medica.
- (iv) Concordance or remedy relationships.

(v) Comparative homoeopathic materia medica, namely:-

Comparative study of symptoms, drug pictures, drug relationships.

(vi) Theory of biochemic system of medicine, its history, concepts and principles according to Dr. Wilhelm Heinrich Schuessler. Study of 12 biochemic medicines. (tissue remedies).

(b) Homoeopathic Medicines to be taught in Second B.H.M.S as per Appendix –I.

APPENDIX-I

1. Aconitum napellus ✓
2. Aethusa cynapium
3. Allium cepa ✓
4. Aloe socotrina
5. Antimonium crudum
6. Antimonium tartaricum
7. Apis mellifica
8. Argentum nitricum
9. Amica Montana ✓
10. Arsenicum album ✓
11. Arum triphyllum
12. Baptisia tinctoria
13. Bellis perennis

14. Bryonia alba ✓
15. Calcarea carbonica
16. Calcarea fluorica
17. Calcarea phosphoric
18. Calcarea sulphurica
19. Calendula officinalis ✓
20. Chamomilla
21. Cina
22. Cinchona officinalis
23. Colchicum autumnale
24. Colocynthis
25. Drosera
26. Dulcamara

27. Euphrasia
28. Ferrum phosphoricum
29. Gelsemium ✓
30. Hepar sulph
31. Hypericum perforatum
32. Ipecacuanha
33. Kali muriaticum
34. Kali phosphoricum
35. Kali sulphuricum
36. Ledum palustre
37. Lycopodium clavatum
38. Magnesium phosphoricum

39. Natrum muriaticum
40. Natrum phosphoricum
41. Natrum sulphuricum
42. Nux vomica ✓
43. Pulsatilla
44. Rhus toxicodendron ✓
45. Ruta graveolens
46. Silicea
47. Spongia tosta
48. Sulphur
49. Symphytum officinale ✓
50. Thuja occidentalis

B. Practical or clinical:

This will cover,-

(i) case taking of acute and chronic patients.

(ii) case processing including totality of symptoms, selection of medicine, potency and repetition Schedule

Each student shall maintain practical record or journal with record of five cases.

C. Examination:

The syllabus covered in First BHMS and Second BHMS course are the following, namely:-

1. Theory:

1.1. Number of papers-01

1.2. Marks: 100

1.3. Distribution of marks:

1.3.1. Topics of I B.H.M.S. 50 Marks

1.3.2. Topics of II B.H.M.S. 50 Marks

2. Practical including viva voce or oral:

2.1. Marks: 100

2.2. Distribution of marks;

2.2.1. Case taking and Case

processing of one long case

Marks

30

2.2.2. Case taking of one short Case

10

2.2.3. Maintenance of Practical record or journal

10

2.2.4. Viva voce (oral)

50

100

Total

THIRD B.H.M.S

In addition to the syllabus of First and Second B.H.M.S. including the use of medicines for Second BHMS (Appendix-I), the following additional topics and medicines are included in the syllabus of homoeopathic materia medica for the Third B.H.M.S examination.

A. General Topics of Homoeopathic Materia Medica -

In addition to the syllabus of First and Second B.H.M.S. including the use of medicines for Second BHMS (Appendix-I), the following additional topics and medicines are included in the syllabus of Homoeopathic Materia Medica for the Third B.H.M.S. Examination.

(a) concept of nosodes - definition of nosodes, types of nosodes, general indications of nosodes.

(b) concepts of constitution, temperaments, diathesis-

definitions, various concepts of constitution with their peculiar characteristics, importance of constitution, temperaments and diathesis and their utility in treatment of patients.

B. Concept of mother tincture.

C. Homoeopathic medicines to be taught in Third B.H.M.S. as in Appendix-II

APPENDIX-II

1.	Acetic acid
2.	Actea spicata
3.	Agaricus muscarius
4.	Agnus castus
5.	Alumina
6.	Ambra grisea
7.	Ammonium carbonicum
8.	Ammonium muriaticum
9.	Anacardium orientale
10.	Apocynum cannabinum
11.	Arsenicum Iodatum
12.	Asafoetida
13.	Aurum metallicum
14.	Baryta carbonica
15.	Belladonna
16.	Benzoic acid
17.	Berberis vulgaris
18.	Bismuth
19.	Borax
20.	Bovista lycoperdon
21.	Bromium
22.	Bufo rana
23.	Cactus grandiflorus
24.	Caladium seguinum
25.	Calcarea arsenicosa
26.	Camphora
27.	Cannabis indica
28.	Cannabis sativa
29.	Cantharis vesicatoria
30.	Carbo vegetabilis
31.	Chelidonium majus

32.	Conium maculatum
33.	Crotalus horridus
34.	Croton tiglium
35.	Cyclamen europaeum
36.	Digitalis purpurea
37.	Dioscorea villosa
38.	Equisetum hyemale
39.	Ferrum metallicum
40.	Graphites
41.	Helleborus niger
42.	Hyoscyamus niger
43.	Ignatia amara
44.	Kali bichromicum
45.	Kali bromatum
46.	Kali carbonicum
47.	Kreosotum
48.	Lachesis muta
49.	Moschus
50.	Murex purpurea
51.	Muriatic acid
52.	Naja tripudians
53.	Natrum carbonicum
54.	Nitric acid
55.	Nux moschata
56.	Opium
57.	Oxalic acid
58.	Petroleum
59.	Phosphoric acid
60.	Phosphorus
61.	Phytolacca decandra
62.	Picric acid

63.	Platinum metallicum
64.	Podophyllum
65.	Secale cornutum
66.	Selenium
67.	Sepia
68.	Staphysagria
69.	Stramonium
70.	Sulphuric acid

71.	Syphilinum
72.	Tabacum
73.	Taraxacum officinale
74.	Tarentula cubensis
75.	Terebinthina
76.	Theridion
77.	Thlaspi bursa pastoris
78.	Veratrum album

Group studies	
Acid group	
Carbon group	
Kali group	
Ophidia group	
Mercurius group	
Spider group	

D. Practical or clinical:

(1) This will cover,-

(a) case taking of acute and chronic patients.

(b) case processing including selection of medicine, potency and repetition schedule

(2) Each student shall maintain a journal having record of ten case takings.

E. Examination:

1. Theory:

1. 1. Number of papers- 01

1. 2. Marks: 100

1. 3. Distribution of marks:

1.3.1. Topics of Second B.H.M.S. 50 Marks

1.3.2. Topics of Third B.H.M.S. 50 Marks

2. Practical including viva voce or oral:

2.1. Marks:100

2.2. Distribution of marks:

2.2.1. Case taking and case

processing of one long case

30

2.2.2. Case taking of one short case

10

2.2.3. Maintenance of practical
record or journal

10

2.2.4. Viva voce or oral
