

VEER NARMAD SOUTH GUJARAT UNIVERSITY

EXAMINATION MARCH- 2026

BHMS HUMAN ANATOMY 1st

SUBJECT CODE: 2407000301020601

SUBJECT — HUMAN ANATOMY

SET-1 PAPER -1

Time: 3 Hrs

Total Marks: 100

INSTRUCTIONS:-

- Draw neat & labelled diagram wherever necessary.
- Figures to the right indicate full marks to question.
- All questions are compulsory.

Q-1 MCQ -

10

1. In a Bone only pain sensitive part is
 - a) Cortex
 - b) Compact bone
 - c) Periosteum
 - d) Medullary cavity
2. Father of modern human anatomy is _____?
 - a) Mondino de Luzzi
 - b) Andreas Vesalius
 - c) William Harvey
 - d) Leonardo da vinci
3. Median artery is a branch of _____ artery?
 - a) Ulnar artery
 - b) Radial artery
 - c) Axillary artery
 - d) Brachial artery
4. The Median cubital vein connects the 2 veins they are _____?
 - a) Brachial & Basilic vein
 - b) Axillary & Cephalic vein
 - b) Cephalic & Basilic vein
 - d) Radial & Ulnar vein
5. Smooth muscles are derived from _____?
 - a) Ectoderm
 - b) Splanchnic layer
 - c) Somites
 - d) Prochondral plate
6. The layer of placenta containing trophoblast cell & responsible for nutrient exchange is _____?

- a) Amnion
 - b) Chorion
 - c) Decidua
 - d) None of above
7. Which layer of DCF forms thyroid gland covering
- a) Skin
 - b) Prevertebral layer
 - c) Pretracheal layer
 - d) Investing layer
8. The branch of external carotid artery also supplying meninges is _____?
- (a) Superior thyroid
 - (b) Inferior Thyroid
 - (c) Vertebral
 - (d) Ascending pharyngeal
9. Drainage of C.S.F is done by _____? (THEME E DK)
- (a) Tela chordae
 - (b) Chorionic villi
 - (c) Choroid plexus
 - (d) Arachnoid Villi
10. Two cerebellar hemisphere is connected by _____?
- (a) Internal capsule
 - (b) Vermis
 - (c) Vallecule
 - (d) Corpus callosum

Q-2 Short Answer questions

(8 x5 =40)

- (a) Explain General anatomy of Synovial joints in detail.
- (b) Describe Difference between vein & artery in Detail.
- (c) Describe Axilla in following – boundaries, contents.
- (d) Spermatogenesis in detail.
- (e) Describe the process of fertilization & important changes occurring till implantation.
- (f) Describe Surface, border & relations of Parotid gland.
- (g) Describe external features of Tongue.
- (h) Falxcerebri in brief.

Q-3 Long Answer Questions

(5 x10 =50)

1. Describe the Mammary gland in following:
 - (a) Extent (2 MARKS)
 - (b) Parts (5 MARKS)
 - (c) applied (3)
2. Describe Course of labourer's nerve with applied anatomy.
3. Describe the Parts, boundaries of Middle ear cavity.

4. Describe Detail anatomy of Thyroid Gland under following:

- (a) External features
- (b) blood & nerve supply

5. Describe the parts of lateral ventricle.
